Blending Brush...			Alt+Shift+E
Clone Brush...			Alt+Shift+N
Other Photo Repair			▶

Step 1:

Using the left mouse button, trace around the part you want to remove finishing on the starting square.

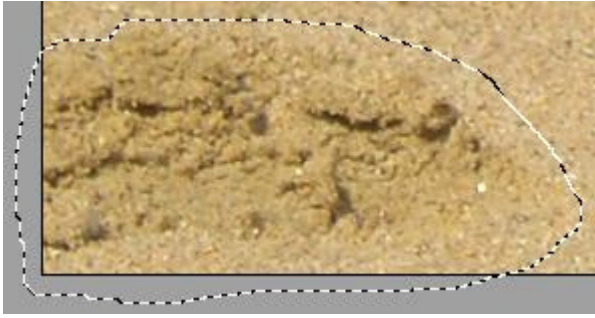

Step 2:

Click on Fill In

2 Click Fill In.
Fill in

Repeat steps 1 and 2 until you have removed all the parts you don't want.

When you are happy with the result click Done.

Fine-tuning may be necessary using the cloning brush.
“Save as.....” and give your file a different name to the original.
